DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-6, drawn to a method of assessing risks in an agricultural enterprise, classified in class 705, subclass 35.
 - II. Claims 8-14, drawn to a program for determining crop insurance coverage level, classified in class 705, subclass 4.
 - III. Claims 15-19, drawn to a method of providing agricultural marketing services, classified in class 705, subclass 10.
 - IV. Claim 7, drawn to a method for determining crop insurance coverage, classified in class 434, subclass 322.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a financial system, invention II has separate utility such as an insurance processing system, invention III has separate utility such as a marketing system, and invention IV has separate utility such as a question or problem eliciting response system. See MPEP § 806.05(d).

Art Unit: 3626

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and/or because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
